

ISGPEG 2022

International Conference on
"Innovative Solutions for Geotechnical Problems"
in Honour of Prof. Erol Guler

22-23 June 2022 • Bogazici University, Istanbul - Turkey

hosted by
igs
Turkish Chapter

CONFERENCE PROGRAM

22 JUNE 2022, WEDNESDAY

09:00-09:30 Registration

09:30-11:00 Opening Session

11:00-11:30 **Coffee Break**

11:30-13:00 **Technical Session-1**

Ayşe Edinçliler - Experimental Studies on Improvement of Seismic Performance of Medium Rise Buildings with Geosynthetics

İlknur Bozbey - Effects of Soil Pulverization Level on Lime Stabilized Clays: Implications on Pavement Design and Performance

Hakkı Özhan - Microplastics in Soil: A Geotechnical Engineering Perspective Elif Çiçek - CBR test results for different geogrid types in road layers

Mücahit Namli - Effect of Building Primary Linings of Subway Station Tunnels with Fiber Reinforced Shotcrete on the Construction Duration of the Subway Station Tunnels

13:00-14:00 **Lunch Break**

14:00-15:00 **Invited Lecture 1 - Prof. Richard Bathurst**

15:00-15:30 **Coffee Break + Networking**

15:30-16:30 **Invited Lecture 2 - Prof. Kerry Rowe**

16:30:17:00 **Coffee Break + Networking**

17:00-18:00 **Invited Lecture 3 – Dr. Daniele Cazzuffi**

18:30 **Light refreshment + Networking**

19:30 **Gala Dinner**
